OTHERS ASPECTS: B license (with vehicle).

About me: I'm a Game designer.

I studied a master's degree in Game Design at the U-tad University in Madrid, creating my first vertical; Not my War.

My speciality is narrative, but I have also been able to learn about other areas such as level design.

I am a proactive person and I love punctuality.

I studied emergency medical services and worked in a casino as a croupier; shortly afterwards, I discovered that I could work in a field I am passionate about: video games.

I began studying on my own until I was finally able to complete a master's degree in Game Design at U-tad University in Madrid.
